Hui Min Goh

DATA ANALYST | AI & AUTOMATION

huiminna711@yahoo.com.sg • +65 8368 9592 • Singapore • linkedin.com/in/hui-min-goh-01802ba3

SUMMARY

Data Analyst with 11+ years in data and tech roles (7+ as a Data Analyst) across banking, government, gaming and telco, turning messy data into automated, trustworthy reporting with SQL, Power Query and Tableau. Automated DQ monitoring across 7 applications in 4 markets at DBS. Now an AI Trainee who built a RAG chatbot live in production at ST Engineering.

EXPERIENCE

AI Trainee (Industry Attachment) — ST Engineering
Aug 2026 – Present

- Designed and built a RAG-based AI chatbot (Copilot Studio, Dataverse, Power Automate), now live in production, automating policy/compliance Q&A for Risk & Assurance staff with escalation routing and Excel sync.
- Building the data layer for a crisis-response training simulation (Power Apps/Automate/Dataverse): schema deploy (13 choice sets, 11 tables), seed data, AI grading rules; UX in design.

AI Trainee — SNAIC (SIT x NVIDIA AI Centre)
Jun 2026 – Aug 2026

- Completed an 8-week applied AI curriculum (ML, data engineering/MLOps, deep learning, CV, LLMs, RAG, generative AI).
- Solo-built a Singapore liveability tool combining live transit data + 233K+ HDB records + ML forecasting (FastAPI, Streamlit, Docker, Airflow).
- Also built: a fine-tuned Llama 3.2 translator (QLoRA, group project), a RAG-based citizen financial assistant, and a multimodal AI storytelling app with voice cloning.

Data Analyst — DBS Bank
Jun 2024 – Jun 2026

- Built a reusable Python template (via AI coding tools) for monthly SQL-to-Excel DQ extracts, and automated reports in Power Query, replacing manual work.
- Automated monthly DQ checks across 7 applications in 4 markets (SG, HK, TW, ID) with SQL profiling, catching inconsistencies across systems early.
- Managed data incidents cross-functionally and strengthened governance through accurate metadata classification and regulatory compliance.

Data Analyst — Singapore Tourism Board
May 2023 – Apr 2024

- Ran end-to-end survey operations for the Annual F1 Event Survey and Visitor Survey — vendor coordination, procurement, and 2024 fieldwork rollout.
- Conducted monthly sanity testing and UAT for hotel data refreshes, ensuring clean documentation and handovers.

Data Analyst Engineer — Tencent
Oct 2021 – May 2023

- Built and set up 7 ETL pipeline sets across ODS/DWS/DWD/DWM data warehouse layers, writing the SQL logic for each layer.
- Created Tableau and Preset dashboard templates for each game title, refreshed daily for China counterpart teams.
- Partnered with product owner teams to define and track game KPIs.

Data Analyst — Sparkline
Mar 2021 – Sep 2021

- Provided analytical expertise for Insurance and eCommerce clients, defining KPI frameworks for digital platforms and building dashboards in Data Studio to turn raw data into actionable decisions.

Data Analyst — Singtel
Apr 2019 – Feb 2021

- Sole admin for Google Analytics, GTM, Optimize, and Contentsquare org-wide — managing user access, vendor relationships, and internal training.
- Delivered data insights and management reporting to 6+ Squads, coaching stakeholders on self-service data access.

Consumer Digital Project Executive — Singtel
Aug 2018 – Mar 2019

- Project Owner for end-to-end delivery of new singtel.com enhancements — requirements gathering, prioritization, conflict resolution, and governance enforcement.
- Delivered under agile, coordinating designers and technical teams to ship features.

Billing Project Executive — Singtel
Aug 2015 – Aug 2018

- Core team member on Singtel's largest org-wide digital transformation project.
- Gathered business requirements, wrote user stories, prepared test plans/scenarios, and led full UAT & BRT testing involvement.

KEY HIGHLIGHTS

11+ yrs data & tech experience

7 organizations across data & AI

6+ applied AI/ML projects built

KEY SKILLS

Technical

SQL • Python • Power Query • Power Apps • Power Automate • GitHub Copilot • ETL & Data Pipelines • Apache Airflow • Excel

AI/ML

Retrieval-Augmented Generation (RAG) • Fine-Tuning (QLoRA) • Agentic Workflows • NLP • Dataverse

Analytics & Visualization

Tableau • R Studio • Google Analytics • Firebase • Contentsquare

Data Governance & Quality

Compliance • Metadata Management • DQ Profiling • Process Automation

Project & Process

Agile Delivery • UAT • Incident Management • Adobe Experience Manager (AEM)

EDUCATION

Bachelor of Communication with Multimedia
Singapore University of Social Sciences · 2018–2021

Diploma in Business Intelligence & Analytics
Temasek Polytechnic · 2012–2015
